The survey Israel in the Time of Coronavirus 14 is a project of the Guttman Center for Public Opinion and Policy Research of the Israel Democracy Institute. In the survey, which was conducted on the internet and by telephone (supplements of groups that are not sufficiently represented on the network) from 12 to 15 November 2020, 607 men and women were interviewed in Hebrew and 152 in Arabic, constituting a representative national sample of the entire adult population of Israel aged 18 and older. The maximum sampling error for the entire sample was 3.7%± at a confidence level of 95%. The fieldwork was done by the Rafi Smith Institute under the direction of Rafi Smith.
